Part B – Cosmetic Product Safety Assessment

Section 1- Assessment Conclusion

This product has been assessed and found to comply with the requirements of current EU and US cosmetic regulations. The ingredients selected have been reviewed and are used at levels suitable to ensure that the end user will experience the level of safety they can reasonably expect for this kind of product when used in accordance with the manufacturer's instructions, and when manufactured following a suitable cosmetic GMP procedure.

Section 2- Labels and Warnings

No warnings are required for this product beyond those customary for this category of product. Period After Opening: 12 Months.

Section 3- Reasoning

This is a novelty product that is used episodically and consequently is not going to come into prolonged contact with the users. The ingredients are generally those who have a history of safe use in this category of product. This assessment has been done with the highest level of all the ingredients used across the range, and therefore is appropriate to the whole range.

Part C – Name / Signature of Assessor

A handwritten signature in black ink, appearing to read 'A.P. Mellor', is written over a light grey rectangular background.
